

Torino, Italy, 10 December 2015

Dear customer,

We are glad to inform you that, in November 2015, the Inspection & Expediting Department of Sideco S.p.A. has been incorporated into Qualytube S.r.l..

Qualytube is an inspection company specialized in inspections and non-destructive testing for the Oil & Gas market. The result of the merge of our companies is a full-range inspection body in which all our individual knowledges are integrated into a stronger structure with the capability to offer you a quality level even better than in the past.

You will continue to have same contact persons, inspectors and level of service you were used to have while working with Sideco S.p.A..

As also the Trade Mark of Sideco is part of our new group, you will continue to receive our reports and documents with the Sideco logo.

The only changing you will notice is the company name and VAT code in contractual documents. All the orders and contracts opened under the name of Sideco S.p.A. will be supplied and invoiced, from now on, by Qualytube S.r.l.:

EITI Sideco – a Division of

Qualytube S.r.l. via Pietro Palmieri 29, 10138 Torino (Italy) VAT Code 10924260010

We, as former Sideco Inspection & Expediting and Qualytube employees, are working together since months in order to build an integrated working system and to merge our skills into a reliable, strong, and qualified Inspections & Tests provider to our customers.

We are enthusiast for this new project, and sure that you'll feel it.

Yours faithfully,

Francesco Canova  
Sideco Project Coordinator

Dario Pasqualini  
Qualytube Managing Director

## Our new logo

In order to emphasize the strength of our merge, we unified our trade marks under the common name of EITI – European Institute of Technical Inspection.

Our original names will continue to identify our different branches of services, and will identify our new divisions, EITI Sideco and EITI Qualytube.
